

## Matching Gift Eligibility

### All organizations must be nonprofit charitable entities.

- US organizations: Only US employees may request a match to an eligible organization in the US. An eligible organization in the US must be tax-exempt under Section 501(c)(3) or Section 170(c)(1) of the US Internal Revenue Code and qualify as a public charity under the code.
- Note: All 170(c)(1) organizations are eligible with the exception of elementary, middle and secondary schools (K-12 schools). However, if the school has a PTA or "Friends Of" organization with its own separate 501(c)(3) status, it would be eligible for consideration.
- UK organizations: Only UK employees may request a match to an eligible organization in the UK. An eligible organization in the UK must be a UK registered charity or one that would be accepted by the Inland Revenue as having charitable status.
- Non US and UK organizations: For all other countries (non US and UK), employees may choose from a suggested list of eligible organizations in their country that will be made available via a [PDF](#). These organizations have successfully submitted the required documentation to confirm their eligibility in the past and we expect they will be approved for a match (although there is no guarantee until they have passed a vetting process). You may submit an application for other organizations to be considered.

Note: Before a match can be approved, we will need to establish the organizations' eligibility which may take several weeks depending on how quickly the organization responds to our request for documentation.

**Organizations and activities that are NOT eligible for matching include:** religious, sectarian, political, lobbying, professional associations, fundraising organizations, private foundations, fraternities, sororities, marathons or similar events. Organizations that advocate, support, or practice activities inconsistent with S&P Global's non-discrimination policies, whether based on race, color, religion, gender, gender identity or expression, sexual orientation, national origin, disability, age or status as a protected veteran.
